## B.C.'S NEW LIQUOR SCHEME NOW IN FORCE

### New U.S. Law Turns European Migration Tide to Dominion

American "Three Per Cent." Regulation Now Being  
Enforced Creates a Problem For Officials of This  
Country.

London, June 15.—The new United States law restricting immigration annually to three per cent. of the total of each nationality already represented in the country has created a new situation for Canada. Of 1,000 Italians who embarked for New York since the regulation was imposed a few weeks ago 700 were refused admittance, but were finally accepted as Italy's quota for the next two months.

Immigration agents in Europe report that this new American law is diverting the flow of peoples to Canada in a very marked way, and has presented a difficult problem to the Canadian immigration officials, who are desirous of restricting the continental European migration as much as possible in view of present conditions in Canada. It is even said that there is a danger that this factor, in conjunction with the discouragement of many classes of British immigrants, may result in Canada receiving more Polish Jews and other non-agricultural Europeans than straining every nerve to comply.

### British Adhere to New Smaller Navy Scheme

London, June 15.—The total expenditures proposed for this year on the building of capital ships for the British navy is £2,000,000, Lieut.-Colonel Amery, Parliamentary and Financial Secretary to the Admiralty, stated in the House of Commons to-day.

Lord Lee, First Lord of the Admiralty, announced in London March 14 last that the British naval estimates for 1921-22 amounted to £91,186,869 gross and £82,479,000 net. In this statement he pointed out that economies proposed included a reduction in the number of capital ships in full commission from twenty to sixteen as compared with thirty-eight in 1914. The sum of £2,000,000 had been included in the estimates for replacement ships, he added, in view of the fact that some of the older ships were obsolete.

### W. C. T. U. SELECTS OFFICERS TO-DAY

Reports Received on Many  
Features of Work

Election of officers of the Women's Christian Temperance Union of British Columbia, at the meeting this morning resulted as follows:

President—Mrs. Wright.  
Vice-President—Mrs. Gillespie.  
Corresponding Secretary—Mrs. Lanning.  
Recording Secretary—Mrs. Harvey.

All By Acclamation.  
A notable feature of the ballot was that all these officers were elected by acclamation. Also were the honorary presidents, Mrs. Cunningham and Mrs. David Spencer, the meeting taking a standing vote in testimony of appreciation of their many years of devotion to the work.

Reports were received from the Legislation Committee by Mrs. Lanning, who stated that very little had to be reported as regards temperance legislation until the present Liquor Control Bill had proved itself, but welfare of mothers and children in the Mothers' Pension Act, Deserted Wives Act and so forth.

Literature was available for distribution, the speaker stated, on such important subjects as the Censorship of Films, Child Welfare, Sanitation in Schools, Civilics and the Higher Education of Women.

Memorial Day Founder.  
Mrs. Priestley, who was welcomed back to the Union after her lengthy illness, thanked the members. She read a long and interesting report on the Union's activities in regard to missionary work, with special reference to the celebration of Frances Willard Memorial Day by the individual branches.

The financial report was presented by the secretary, Mrs. Frank Andrews, and was voted to be adopted as it stood, audited, and found correct; but that the rider, that a separate bank account be opened for the home fund, should be left over to tomorrow afternoon, when the convention will discuss the matter further and pass upon it.

Many Delegates Present.  
Roll call was taken, 122 delegates from other branches reporting present. The report of the credentials committee on number of delegates which each Union is entitled to was read by Mrs. Harvey.

A New Branch.  
Congratulations were expressed by Mrs. Wright to the Kamloops branch, newly re-organized, which, with only seven members had held together and fought the good fight throughout the recent prohibition campaign, working day and night to further the cause of the Union.

Letters of greeting were read from the Dominion president, Mrs. Gordon Wright from the Ontario president, Mrs. Stevens, and from Mrs. Johnson, editor of the W. C. T. U. Bulletin.

(Concluded on page 12.)

### TRADE FIGURES SHOW DECREASE

Canadian Total Stands at  
Lower Level

Drop Not Unexpected, Says  
Ottawa Dispatch

Ottawa, June 15.—(Canadian Press).—During the month of May, as compared with the corresponding month last year, Canadian trade took another heavy drop. Last month the total trade was \$129,035,951, as against \$193,728,028 in May, 1920, a reduction of \$64,700,087. For the two months of the fiscal year ended with May, the total trade was: 1921, \$238,425,508; 1920, \$245,900,272, a reduction of \$107,474,764.

Exports of domestic merchandise last month totalled \$59,567,992, as against \$77,342,578 in May, 1920. Agricultural and vegetable products classified as mainly foods were the only domestic merchandise to show an increase. They totalled \$26,417,869, as against \$10,772,539 in May, 1920. For the two months of the fiscal year also they showed an increase, namely, 1921, \$42,032,631; 1920, \$32,494,672.

Comparisons.  
Principal exports of domestic merchandise to May in the two years compare as follows:

Animals and animal products, \$15,753,834; \$9,726,650.  
Iron and steel manufactures, \$6,645,900; \$2,036,082.  
Cores, \$1,703,350; \$1,703,350.  
Furs other than iron and steel, \$13,469,890; \$1,042,988.  
Non-metallic minerals and products, \$3,356,589; \$1,703,350.  
Foodstuffs, \$21,573,530; \$12,717,900.  
Manufactures, \$21,573,530; \$12,717,900.

Duty collected on imports in May, 1921, was \$19,929,885; in May, 1920, \$9,992,488. In the two months ended with May it was \$37,246,500; \$20,294,016.

(Concluded on page 1.)

### WOULD GOVERN IMMIGRATION

Australians Wish to Reduce  
Unemployment

London, June 15.—(Canadian Associated Press).—Interviewed to-day in regard to the wave of industrial world depression, Premier Hughes, of Australia, said that the Commonwealth had not been unaffected and there had been a very real reason to prevent a difficult labor situation arising in that country.

He was not prepared to encourage a large number of immigrants than the Commonwealth could absorb.

U. S. Labor's Attitude.  
Denver, Colo., June 15.—President Harding and Congress are urged to lead the way in bringing about world disarmament in a resolution presented to-day to the 41st annual convention of the American Federation of Labor.

They are requested to call a conference of the powers of the world "with the hope and in the belief that through such conference the billions now being expended in naval armaments may be saved to the taxpayers of the several countries."

No Race Wanted.  
"The whole world contemplates with horror," said the resolution, "the possibility of a race for naval power between the United States, Great Britain and Japan, similar to that between Great Britain and Germany which preceded the great world war."

"Such a race is inconsistent with, and must serve to postpone and prevent general disarmament to which the American labor movement stands committed."

ROSE SHOW  
Centennial, Wash., June 15.—Centennial's annual Rose Show is being held to-day.

GREEK OFFENSIVE  
IN ASIA MINOR

Effort Against Turks About  
to Start

Constantinople, June 14.—Opening of the Greek offensive against the Turkish Nationalists in Asia Minor is believed here to-night to be imminent.

British reserves are relieving the Greek 11th Division at Imdid, on the Sea of Marmara, and it is proceeding to the Ushak front, near the Bagdad Railway northeast of Smyrna.

Many Delegates Present.

Roll call was taken, 122 delegates from other branches reporting present. The report of the credentials committee on number of delegates which each Union is entitled to was read by Mrs. Harvey.

Letters of greeting were read from the Dominion president, Mrs. Gordon Wright from the Ontario president, Mrs. Stevens, and from Mrs. Johnson, editor of the W. C. T. U. Bulletin.

(Concluded on page 12.)

### THE NEW BRONCHO BUSTER

### Premier Oliver Urges Power For Canada to Restrict Orientals

The Provincial Government, through Premier Oliver, has forwarded to Premier Meighen in London a cablegram urging that any renewal of the Anglo-Japanese treaty should preserve to Canada the right to restrict Japanese immigration, something which the existing treaty does not stipulate.

In connection with this, Hon. E. D. Barrow, Minister of Agriculture, has collected data showing to what extent Japanese and Chinese are engaged in the business of agriculture and horticulture in this Province. This information has been forwarded to Hon. Simon F. Tolmie, Dominion Minister of Agriculture, who is accompanying Premier Meighen on his mission to England.

Premier Oliver, in discussing this matter, said that a number of years ago the Legislature passed a resolution in favor of prohibiting the employment of Asiatics on Provincial work, or in connection with the development of Provincial resources. Following this, in all timber leases a clause was inserted prohibiting the employment of Orientals.

Some time ago the Dominion Minister of Justice advised the Government that such a clause was contrary to the provisions of the Japanese treaty. A test case was submitted to the Court of Appeal, which upheld the contention of the Minister of Justice. An appeal against this decision has been entered on behalf of the Province.

"In any new treaty which may be negotiated," said Premier Oliver, "the Government is desirous that such treaty shall preserve to the Province the right to deal with its own resources unhampered by treaty obligations."

The text of the cablegram forwarded to Premier Meighen by Premier Oliver is: "Strongly urge on behalf of this Province that renewal Japanese treaty preserve to Canada right to restrict Japanese immigration in the interests of a white-British Columbia. Our Minister Agriculture has already furnished Tolmie with facts supporting our contention. Minister of Justice has advised and since supported by Court of Appeal that present treaty precludes this Province stipulating in public works contracts against employment Japanese and precludes stipulation in leases Crown lands against employment Orientals thereon. Strongly protest against renewal treaty containing clause to interpret and urge you to preserve for this Province its right to control its own lands and make its own contractual stipulations."

FOR ALASKA.  
Washington, June 15.—Legislation to strengthen the powers of the President in dealing with certain Alaskan questions is understood to be favored by the administration.

AMERICAN LEGION  
ELECTS NEW HEAD  
Indianapolis, Ind., June 14.—John G. Emery, of Grand Rapids, Mich., was unanimously elected national commander of the American Legion at a meeting of the national executive committee to-day. He succeeds Col. Frederick W. Galbraith, Jr., who was killed in an automobile accident here last Thursday.

### Liquor Sale Starts Under Government: No Buying Rush Yet

Swarm of New Clubs Accompanies Beginning of Government Control in British Columbia; Private Firms Carry On As Usual and Announce Prices Lower Than Government's List.

Features accompanying the start of liquor sale to-day in British Columbia under a Government permit system, through Government vendors and the shutting off of all public beer selling in bars, hotels and clubs, were:

Incorporation of 46 more B. C. bars and hotels as "clubs."  
Fixing price of \$20 a barrel and \$2 a dozen bottles on local beer delivered direct from brewery.  
Failure of heralded rush of thirsty to Government liquor stores to stock up and get going.

### COAL STRIKERS IN BRITAIN VOTE

Making Decision on Mine  
Owners' Proposals

London, June 15.—British coal miners to-day voted on the proposals of the mine owners for the settlement of the coal miners' strike, which has been in progress since April 1. All coal fields in the United Kingdom were effected by the decision to ballot on acceptance or rejection of the mine owners' terms, and the question was placed before the strikers with recommendations from the conference of delegates which met here on June 10.

The result of to-day's vote will be announced on Friday.

Proposals.  
The owners' final proposals included the establishment of a new standard minimum wage by raising the 1914 scale, or that of 1919 in the case of pieceworkers, by twenty per cent. It was provided that this percentage would be calculated on the output for March, 1921, and would continue in effect for twelve months. The owners offered to surrender their profits proportionately to the assistance received by the various districts and new district boards would, if the proposals should be accepted, redistribute the district on an economic basis of a geographical basis. A national wage board would then determine the ratio of profits to wages in each district.

The owners suggested as an alternative that the new wage standard be settled by a national wage board or by arbitration.

The delegates who met here on June 10 represented 958,000 coal miners.

BRITISH URGE  
CHANGE IN SILESIA

All British Troops Under British Command

London, June 15.—The British Government, in a further communication to the French Government on the Silesian question delivered to-day through Lord Hardinge, British Ambassador to France, calls attention to the "continued failure of France to co-operate" in the restoration of order in Silesia and declares that the lack of concerted action is producing an increasingly serious situation.

The British Government suggests that all the British troops in Silesia be placed under British command, which would involve the relinquishment of French military control at some points. It is explained that this would have the effect of freeing more British forces for independent action.

In official circles it is admitted that the work of clearing up the plebiscite zone is virtually at a standstill.

ONTARIO MAN IS  
CHOSEN CHIEF OF  
ROTARY CLUBS

Edinburgh, Scotland, June 15.—Dr. Crawford C. McCullough, of Fort William, Ontario, was to-day unanimously elected president for the ensuing year of the International Association of Rotary Clubs, now in annual session here.

WINNECKE COMET  
AT NEAREST POINT

New York, June 15.—Pons Winnecke, the comet about which so much has been written and said during the last two months, has at last reached us and is passing at the rate of twenty-four miles a second. It has arrived but only in an astronomical sense, its distance being some 10,000,000 miles, which is not in the neighborhood at all.

The celestial roamer will not start this way again for several years. The tail of the visitor, which is sweeping close to the earth on June 27, is said to be a sort of meteor dust, astronomers say, but the heat of the comet, composed of many particles, is passing unnoticed.

Scientists are hopeful that the tail may touch the earth so that confirmation can be obtained concerning the nature of the gases that make up the tail.

British to Recall All  
Troops in Mesopotamia

London, June 15.—In the course of his speech yesterday in the House of Commons dealing with Great Britain's policy of replacing the existing provisional native Government of Mesopotamia by the creation of a new Arab state, Winston Churchill, the Colonial Secretary, stated there were no primary or directly strategic interests concerning India to justify British retention of Mesopotamia. India, he said, could better be defended on its strategic frontier.

The British Government's policy was to reduce its burdens, while discharging its obligations, by creating a Government which would be a friend of Great Britain and might also be a friend of France. An Arab army would be created for the defence of the new state.

(Concluded on page 12.)

"Business As Usual," signs hung out by all liquor firms, who say they will continue to fill orders as usual, and deliver liquor direct to customers.

Announcement by liquor firms of prices running 50 to 75 cents a bottle lower than the Government price on whisky with no need of buying permits to get it.

Most bars and "clubs" remain open, declaring they will sell only "soft" drinks.

Legitimate clubs, with dining rooms plan installation of locker systems for their members' liquors.

Opening without formal announcement of a second liquor store in Victoria in the St. Francis Hotel, lower Yates Street.

"Big row" promised by returned soldier clubs over shut-down on beer selling.

Aim To Impede New Law  
Start of liquor sale to-day in British Columbia under Government control was accompanied by the incorporation of forty-six more "clubs."

Most of these clubs are in Vancouver. Their incorporation will be completed in names announced tomorrow. They are in addition to the long list of incorporations announced last week. Another lot of "clubs" are already on their way for early incorporation.

"I suppose they are getting their incorporations as a result of legal advice," said Premier Oliver to-day, when the latest swarm of club incorporations was brought to his attention. "They must believe they can do something."

"But there seems to be an effort on the part of some organizations and through newspaper editorials to impede the operations of the Government Control."

The Hon. J. W. de B. Farris, Attorney-General, said that clubs discovered incorporating themselves for improper purposes will have their charters speedily revoked.

Bear Price Settled.  
Just about the time the liquor stores opened for business, Attorney-General Farris called in James Patterson, Government Purchasing Agent, and asked him what the price of beer and a little later A. M. Johnson, K. C., chairman of the Liquor Board, announced the price of beer as \$20 a barrel and \$2 a dozen bottles delivered direct from local breweries to consumers' homes in the cities.

Thirsty Throng Absent.  
Sale of liquors commenced at 11 o'clock in the Government vendors' at 755 Yates Street. The rush of parched citizens for this oasis was conspicuous by its absence. Up until this morning there were only about an even number of customers of each liquor store, as only that number of persons had bought their liquor permits. In Vancouver the number of permit-holders is a little larger, but proportionately to population the number is far smaller than here. The stores will be open until 7 p. m. daily but closed for the full moon hour.

Opening Quicker Store.  
At noon Chairman Johnson of the Board visited headquarters Government liquor warehouse and bought his permit.

Just after the Government store on Yates Street got going at 11 o'clock, it was learned that the Board is opening and stocking up another store in the St. Francis Hotel building, lower Yates Street, just below Government. A big stock of whisky was put in there to-day, but no announcement of the opening of this store was made by the Board.

For Women and Sashful Men.  
At the offices of the Board it was said that there was nothing to announce. Officials of the Board at the new store, however, said they expected to do a little business. If the city there. The store has been selected in an almost deserted part of Yates Street, which is at the same time only a couple of hundred yards from the busiest part of the city. Officials explained the site was chosen because customers, especially women, could go there and get their supply without being seen going in or out of the shop.

Clubs Change Over.  
All the legitimate clubs in the city have taken liquor stores under their wings, and are now selling only soft drinks. Members of these clubs, however, are allowed to have all the liquor they want in their own homes. For the convenience of their members the clubs are arranging for lockers where members can keep a supply of liquor handy to their dining, lounge and smoking rooms.

### PRINTERS' STRIKE IN TORONTO

Boston Newspaper Compos-  
itors Also Idle

Toronto, June 15.—Negotiations between the employing printers and the press men's union, looking to a settlement of the strike, came to an abrupt conclusion at noon yesterday when it was decided by representatives of both sides to adjourn the negotiations indefinitely.

F. M. Kimbark, chairman of the Typographical union, states that the adjournment was brought about by the employers, who were only prepared to take back members of the union as they were required.

In Montreal.  
Montreal, June 15.—Fifteen job printers employed by The Herald Press went on strike when given work to do which came from a Toronto shop where the men are on strike.

In Boston.

Boston, June 15.—Newspaper compositors who walked out of newspaper offices here voted yesterday night to return to work unless demands for a wage increase were granted. This action was taken after J. McBride, president of the Boston Typographical Union No. 13, had told the men they had made a mistake and urged them to return to work.

The scale demanded calls for \$1.22 an hour for day workers, \$1.29 for night workers and \$1.30 for the lobster shift.

All newspapers are publishing, but most of them have fewer pages than usual.

Newspaper publishers in a statement said International Typographical Union officers and the president of the local union had ordered the men back to work, but that the large majority had refused.

### NOISY SCENE IN BRITISH COMMONS

London, June 15.—A scene occurred in the House of Commons last night. Joseph Devlin, who represents the Falls division in Belfast, moved adjournment so that attention to what he called lack of discipline in the House of Commons might be discussed. He described what he termed cowardly crimes on innocent men, and accused the Government of setting up tribunals to cloak these crimes. He also described the growth of forces, acting in concert, by pre-arranged plans, were dragging men from their homes and assassinating them. He further charged that the Government was doing nothing to bring the assassins to justice.

Sir Hamar Greenwood, Chief Secretary for Ireland, was replying, repudiating Mr. Devlin's accusations, after a somewhat stormy debate, when John Jones, a Labor member, shouted: "Three cheers for the assassins!"

This provoked an uproar. Coalition members crying: "Turn him out!" Mr. Jones refused to withdraw his expressions. The Speaker reminded him that he had already been called to order for interrupting the debate. Mr. Jones still refused, and the Speaker, continuing the Speaker formally ordered him to withdraw. Mr. Jones then left the House, shouting as he went out: "Good night, all you assassins!" and exchanging epithets with the Coalition members.

The Chief Secretary then resumed. He declared conditions in Belfast were still unsatisfactory, and that a deliberate Sinn Fein campaign was being conducted to destroy the Northern Parliament. He added that Mr. Devlin had not produced a title of evidence to support his charges. The Government, continued the speaker, must take every means to defeat the Sinn Fein conspiracy, and break up the Empire by a highly organized and heavily financed—principally from the United States—organization of murder and terror.

Sir Hamar was continually interrupted throughout his speech.

Glen Voliva, ruler of Zion City, Ill., issued the edict to the ladies: "Lengthen your skirts or shorten your legs."

### SAYS TRADE AGENTS ARE INACTIVE

St. John, N. B., June 15.—The trade department of the Canadian High Commissioner's office in London is "as dead as Julius Caesar," Premier Foster, of New Brunswick, declared yesterday in the course of a statement during a recent trip to Great Britain. Mr. Foster gave it as his opinion that increasing trade within the Empire had been thrown to the winds by the British Government. While in London the Premier attended the organization of the Canadian Chamber of Commerce created by the initiative of the trade department of the High Commissioner's office. A representative of the new body, Mr. Foster, said he was disappointed in the financial assistance of all the Provincial Government of the Dominion.

### MIXED DANCING IS CONDEMNED

Regina, June 15.—Disapproval of the present system of cadet training in the school of the Province, of all forms of mixed dancing; of racing gambling and newspaper guesswork; of scenes in motion pictures portraying crime and violence, the methods of criminals and sex nature, and of holding of all pugilistic encounters within the Province, was voiced in various motions passed by the Saskatchewan Methodist Conference yesterday.

The conference also expressed its disapproval of any further system of religious education in the public schools by voting upon a motion to provide for a traveling teacher of religion who would work during school hours.

## BUILDING ACTIVITY WITHIN DOMINION

Contracts Awarded in May to Value of \$25,859,500; British Columbia Third

Building and engineering operations in Canada increase in numbers and cost during the month of May, when contracts were awarded to the value of \$25,859,500, compared with \$21,722,000 in April (an increase of 24.3 per cent.), \$10,254,700 in March, \$17,611,000 in February and \$4,947,500 in January. These figures, compiled by MacLean Building Reports Limited, show that in May construction was started on 2,284 residences, valued at \$10,537,400; 400 business buildings, costing \$11,881,800; 19 industrial plants at \$469,300 and 148 engineering projects costing \$3,970,800.

Contracts were awarded during May throughout the various provinces as follows:

No. of Projects	Value
Ontario .....	1,651 \$15,235,900
Quebec .....	466 4,700,000
British Columbia .....	191 2,772,200
Saskatchewan .....	118 1,576,300
Maritime Provinces .....	138 1,389,700
Manitoba .....	157 1,219,700
Alberta .....	130 1,58,900
<b>Total for Dominion</b> .....	<b>2,851 \$25,859,500</b>

**Residential Work**  
With five months' statistics to work upon, proper comparisons can now be made between this year's activity and that of preceding years. Residential work is more active than ever, the total for five months being \$25,742,300 as compared with \$25,312,500 in 1920, \$13,198,300 in 1919 and \$4,414,100 in 1918. This in itself is a splendid sign. The crying need in all parts of Canada is for living accommodation, and until the supply of houses materially increases rents will maintain their present high level, no houses will be sold at a maximum price, loans will demand a high rate of interest, and old houses will continue to appreciate in value. All this means that the average man has to pay one-third, and perhaps more, of his income in order to have a roof over his head. As soon as the present shortage is relieved and it is possible for working men to get living accommodation for a sum approximating 25 per cent. of their income, a great deal of money will be released for general business purposes. There seems to be no indication that the Federal, Provincial or Municipal authorities do anything to interfere with the present situation and, consequently, the law of supply and demand alone will bring us back to normal; therefore we consider it a good sign that residential work is still on the increase.

**Business Buildings**  
This type of construction is also increasing in volume. For the first five months of this year contracts awarded amounted to \$11,881,800 as compared with \$9,507,200 in 1920, \$4,346,300 in 1919, and \$2,100,000 in 1918. These figures indicate a return to the type of construction which was most neglected during the war period. It also indicates a return to the better class of work because the higher grades of building materials are used. There will undoubtedly be an increasing demand for face brick, cut stone, hardwood and interior trimmings of every description. The work which is being proceeded with also calls for greater skill in workmanship. Many schools are being erected this year throughout the Dominion, while hotel men are emerging from the gloom caused by prohibition. They have learned that a hotel is a paying proposition in direct ratio with the quality of the accommodation supplied; thus we see many big hotel projects going ahead in the big cities, which is also being reflected in the smaller towns, where additions and renovations are being made to the existing premises.

**Industrial Projects**  
Contracts awarded for the first five months of 1921 for industrial projects amounted to \$2,322,300 as compared with \$37,102,100 in 1920, \$19,439,300 in 1919, \$10,639,800 in 1918. This figure of course is the natural outcome of a quiet Fall and Winter. With ample stocks on hand and very conservative buying there is nothing to warrant the expansion of manufacturing facilities. Last year's total contained several pulp and paper projects running into many millions. The lack of industrial work affects chiefly the manufacturers of equipment. Those who would find employment in the actual construction work can be taken care of on other classes of work. This applies also to materials. In this connection it is well to note that there are 34 new projects contemplated, amounting to \$8,094,400. It would seem, then, that the tide has turned so far as this class of construction is concerned.

**New Building in Prospect**  
The value of Canadian building and engineering work reported during May for the first time as contemplated totalled \$20,444,300, as compared with \$29,596,500 in April. This total includes 15 apartments, 21 churches, 34 factories, 32 public garages, 11 hospitals, 17 hotels, 26 office buildings, 27 public buildings, 516 residences, 149 schools, 32 stores, 6 theatres, 12 warehouses, 95 bridges, 9 dams and wharves, 51 sewers and water mains, 90 roads and 5 general engineering projects.

Contemplated work serves as a basis for accurately judging the value of contracts to be awarded from three to six months hence. Here are the figures for May, by districts:

No. of Projects	Value
B.C., Alta., Sask., Man. .....	344 \$12,927,200
Ontario .....	372 10,076,800
Quebec .....	326 5,730,200
N.S., N.B., P.E.I. ....	97 1,709,900
<b>Total for Dominion</b> .....	<b>1,139 \$30,444,300</b>

## LIQUOR PROBLEM IN NEWFOUNDLAND

People Probably Will Have Chance to Vote

St. John's, Nfld., June 15.—A proposition for a plebiscite next November to determine the future policy of the colony of Newfoundland with regard to the prohibition law which has been in effect since January, 1917, has been introduced in the Assembly by the Government. The questions which would be placed on the ballot under the Government's plan would be whether the prohibition law should continue in effect or be modified or whether Government dispensaries of liquor should be established at various points.

## MORE EVIDENCE AT CATTLE INQUIRY

London, June 15.—Canadian Ambassador in London, Sir Charles Stewart, yesterday, his testimony was largely directed to the disease of animals but he made some reference to Canada's interest in the inquiry. While assenting that the admission of Canadian store cattle was a risky business from the

viewpoint of disease, he expressed great admiration for Canada's record in the efficient care and protection of its herds. Nevertheless, if Canadian cattle were admitted there ought to be a month's quarantine at least at British ports, he thought. William Smith, representing the Forfeiture, Scotland, County Council, said that Canadian cattle were healthier than British. He was in favor of removal of the embargo.

## ARMY DEPARTMENT BOOKS AUDITED

Ottawa, June 15.—An audit of Militia Department books has begun to discover to what extent individuals have benefited by the alleged frauds in exchange. "There will be a thorough sifting," said General Sir Eugene Fiset, Deputy Minister of Militia. "It has gone beyond a departmental matter. We have done everything we could, notwithstanding the criticisms made."

## SHAD ARE TAKEN

St. John's, N.B., June 15.—Shad have been protected in this Province for a number of years in an attempt to conserve the fishery. But in the St. John's district the catch is very light. There are more in the Gagetown waters, but most fishermen report the daily taking fish are, rare although large.

Before  
Baby Comes

## CONTENTS OF THE 136-PAGE GLAXO BABY BOOK

**BEFORE BABY COMES**  
Pregnancy, delivery, and the first few days of life. Includes chapters on the mother's health, the baby's development, and the mother's diet.

**THE IDEAL BABY**  
The ideal baby is one who is healthy, happy, and content. This chapter discusses the factors that contribute to a baby's well-being.

**THE WUBBER**  
The wubber is a baby's first friend. This chapter discusses the importance of a good wubber and how to choose one.

**FOR THE PARENTS**  
This chapter provides advice for parents on how to care for their baby, including feeding, clothing, and discipline.

**FOR THE NURSE**  
This chapter provides advice for nurses on how to care for babies, including feeding, clothing, and discipline.

**FOR THE DOCTOR**  
This chapter provides advice for doctors on how to care for babies, including feeding, clothing, and discipline.

**FOR THE MIDWIFE**  
This chapter provides advice for midwives on how to care for babies, including feeding, clothing, and discipline.

**FOR THE NANNY**  
This chapter provides advice for nannies on how to care for babies, including feeding, clothing, and discipline.

**FOR THE GRANDMOTHER**  
This chapter provides advice for grandmothers on how to care for babies, including feeding, clothing, and discipline.

**FOR THE AUNT**  
This chapter provides advice for aunts on how to care for babies, including feeding, clothing, and discipline.

**FOR THE UNCLE**  
This chapter provides advice for uncles on how to care for babies, including feeding, clothing, and discipline.

**FOR THE BROTHER**  
This chapter provides advice for brothers on how to care for babies, including feeding, clothing, and discipline.

**FOR THE SISTER**  
This chapter provides advice for sisters on how to care for babies, including feeding, clothing, and discipline.

**FOR THE NEIGHBOR**  
This chapter provides advice for neighbors on how to care for babies, including feeding, clothing, and discipline.

**FOR THE STRANGER**  
This chapter provides advice for strangers on how to care for babies, including feeding, clothing, and discipline.

**FOR THE DOG**  
This chapter provides advice for dogs on how to care for babies, including feeding, clothing, and discipline.

**FOR THE CAT**  
This chapter provides advice for cats on how to care for babies, including feeding, clothing, and discipline.

**FOR THE FISH**  
This chapter provides advice for fish on how to care for babies, including feeding, clothing, and discipline.

**FOR THE BIRD**  
This chapter provides advice for birds on how to care for babies, including feeding, clothing, and discipline.

**FOR THE INSECT**  
This chapter provides advice for insects on how to care for babies, including feeding, clothing, and discipline.

**FOR THE PLANT**  
This chapter provides advice for plants on how to care for babies, including feeding, clothing, and discipline.

**FOR THE ROCK**  
This chapter provides advice for rocks on how to care for babies, including feeding, clothing, and discipline.

**FOR THE MOUNTAIN**  
This chapter provides advice for mountains on how to care for babies, including feeding, clothing, and discipline.

**FOR THE RIVER**  
This chapter provides advice for rivers on how to care for babies, including feeding, clothing, and discipline.

**FOR THE OCEAN**  
This chapter provides advice for oceans on how to care for babies, including feeding, clothing, and discipline.

**FOR THE SKY**  
This chapter provides advice for the sky on how to care for babies, including feeding, clothing, and discipline.

**FOR THE EARTH**  
This chapter provides advice for the earth on how to care for babies, including feeding, clothing, and discipline.

**FOR THE UNIVERSE**  
This chapter provides advice for the universe on how to care for babies, including feeding, clothing, and discipline.

Proprietors of Glaxo: Joseph Nathan & Co. Ltd., London & New Zealand

"THE doctor says I'm a wonderful mother, but all mothers could be wonderful if they did as I did and sent for a Glaxo Baby Book, and carefully followed the rules and directions." So says one mother. Others say: "The Glaxo Baby Book is a real treasure and has helped me very much." "We make constant reference to the Glaxo Baby Book and find it an invaluable guide." "Any time I feel worried I just look at my Glaxo Baby Book—it is so valuable that I think every mother should have one."

The 136-page GLAXO BABY BOOK has been described by a mother as "a perfect guide to the care of a baby." It is, indeed, a real guidebook to wise motherhood, and its simply expressed and easily understood pages show the expectant mother and the mother of babies will find the most complete information as to baby's needs in health and in sickness. The Glaxo Baby Book is treasured and constantly referred to in over a hundred thousand homes, and no one who has a baby, or expects a baby, should be without it. See table of contents on this page.

**THE GLAXO WEIGHT CHART** gives average weights and heights at different ages, and enables a mother to keep a proper and accurate record of baby's progress week by week. By the use of the Glaxo Weight Chart a mother may almost, as it were, "see Baby grow."

**"BEFORE BABY COMES"** A talk to Expectant Mothers—presented in the form of a dainty little book (28 pages and cover). The expectant mother cannot fail to derive confidence and comfort from this little book. It gives sound advice on this important period under the headings of: When Mother Mother's Food; Baby's Growth; Exercise; Fresh Air; Clothing; Hygiene; Care of the Breasts; Care of the Teeth; Mental Health; List of Articles needed at Confinement for Mother and Baby.

**Accept this Special Offer!** For 50 cents we will send you the Glaxo Baby Book—136 pages, crammed full of baby lore and mother-wisdom—and a Glaxo Weight Chart. In addition, we will send to Expectant Mothers who state on the coupon the month Baby is expected, our booklet "Before Baby Comes" and a Special Recipe Book. If you do not wish to receive these books, please return the coupon to us. We will refund your money.

## SEND THIS COUPON

To Sell Agents for Canada:  
Harold F. Ritchie & Co., Ltd., 10 McCaul St., Toronto  
I enclose 50 cents, for which please send me the 136-page GLAXO BABY BOOK and other mother-helps as your special offer in (insert paper and date of issue).

Please write in capital letters

Name \_\_\_\_\_

Address \_\_\_\_\_

I have a Baby aged \_\_\_\_\_ (state month).

I expect a Baby in \_\_\_\_\_ (state month).

Dr. R. G. Cole claims he was damaged in reputation as a result of a letter written by Mrs. Caroline Votaw, sister of President Harding, during the trial at Washington of

the domestic difficulties of Dr. Cole and his wife, and is suing her for \$25,000.

As a tribute to his helpful inter-

est in them, 281 prisoners sentenced by Judge Ashley M. Gould, of the District of Columbia Supreme Court, subscribed for a huge wreath at his funeral.

## SHOW RESOURCES OF SIDNEY AND RICH PENINSULA

Exhaustive and interesting data concerning the Saanich peninsula is contained in a booklet published by The Sidney Review for the benefit of the members of the Canadian Weekly Press Association who visited the island last week. Unfortunately, the visitors did not go to Sidney on Sunday, so they were unable to receive the booklets that had been prepared for them. This was the cause of not a little disappointment and criticism among the Sidney people, for a reception committee of citizens, who were ready to greet the weekly newspapermen, were not informed that the Sidney visit had been cancelled.

The booklet, published by F. Forneri, editor of The Sidney Review and a member of the Canadian Weekly Press Association, runs as follows: The Saanich Peninsula is the portion of land on Vancouver Island that extends north from Victoria. It is about twenty-two miles long and eight miles, bounded on the east by the Gulf of Georgia and on the west by the waters known as the Saanich Inlet.

**Very Fertile Land.**

The land may be described as undulating, and has some very fertile valleys. Some portions have already become famous for their fruit, notably the Gordon Head and the Keating district. Some of the mountains which may be noticed are Mount Douglas, the Little Saanich Mountain and Mount Newton. At Little Saanich Mountain is situated the Dominion Government Observatory. The situation for the observatory is of the extreme clarity of the atmosphere.

As you approach Sidney from Victoria, the Dominion Experiment Station, in the Baxan Bay district, is seen. This is the only experiment station on Vancouver Island, and was established about nine years ago and is famous for its poultry, stock, seed-growing, bulb production, etc. Prof. L. Stevenson has been in charge of the station for the past six years.

Below the Experiment Station, nearer to Sidney, is the plant of the Sidney Water and Power Company, which receives its supply from springs on Mount Newton.

**Roads and Rail Communication.** The two principal roads from Victoria are the Esquimalt and the West Road. Both of these are favorite drives of the motorists, the traffic on the Esquimalt Road being heavier.

Direct communication between Sidney and Victoria is by motor stage, of which there are two services, giving ten trips a day each way. Transportation is also by rail, a daily service being maintained by motor trucks.

The B. C. Electric Railway Company's interurban service is principally on the west side of the Peninsula and extends to Deep Cove on the extreme northwest.

Sidney has transcontinental connections through the Canadian National Railway, which operates between the Mainland, Patricia Bay and Victoria, a mile-long track from Sidney running south from the link over this track, lumber is shipped almost daily from the Sidney Mills.

**Historically.** The first white man to settle in Sidney was a Mr. Page, an old employee of the Hudson's Bay Company. This was about sixty years ago.

Of the early names few remain, with the possible exception of John Broderick, many of whose descendants still live in Sidney, four of his sons and many grandchildren.

In the early days the only communication with Victoria was by road or water. Until about thirty years ago, when the Victoria and Sidney railway was constructed by Mr. T. W. Patterson, the late Lieutenant-Governor of British Columbia. This company discontinued business about two years ago, and the track, with the exception of the mile out of Sidney, was pulled up.

**Industrially.** Sidney can boast of some substantial industries already established. The first to be mentioned must be the big lumber mill. This was built in the early days of Sidney's history, about thirty years ago, by Mr. J. H. White. Like all industry of a similar character, it had a varied career until nearly five years ago, when it came into the hands of the present owners, the Sidney Mills, Ltd. Mr. G. H. Walton being the manager and largest stockholder. Very extensive alterations and improvements have been effected during these years, the mill is now in operation. A noticeable feature of the improvements is the brick chimney. This is a recent improvement, the old brick and tile kiln. Other improvements have been made, including the building of large sheds and the installation of up-to-date machinery.

The capacity of the mill has been greatly increased by these improvements, the cut now averaging over 90,000 feet per day, while as high as 120,000 feet has been accomplished. During the war strenuous efforts were made to maintain the supply of spruce for aeroplanes, etc. The white help in this mill is very much in excess of what is supplied by the mill itself of the province. The Sidney Mills manufactures lumber of all grades, sizes and qualities, and is second to none. The output is shipped by rail over the Canadian National Railway or by scow.

The next industry to be established was the clam and fruit packing cannery, situated on the waterfront. This has been in operation for about fifteen years, and its products are well known under the name of "Saanich Brand."

The claims are put up during the Fall and Winter months, a staff of 50 or 60 being employed. During the clam season the waterfront in the vicinity of the cannery presents a very busy appearance, large numbers of Indians bringing in the clams in motor launches, etc. The chief feature of the product is that only the best quality of clams are selected to be better and finer than any other clam.

The clams are packed in cans, and are ready to be served and blackberries are also packed and find a ready sale. The fruit is secured from the surrounding district, and from the islands of the Gulf.

The Sidney Roofing and Paper

plant was established in Sidney nine years ago, and is another industry that has greatly improved its position in the industrial world. The products of this company find a sale to-day in Australia, New Zealand, India and South Africa, as well as supplying the local market. Last year an extension of the business was made and established in Victoria for the manufacture of felt products. Boat building is carried on in Sidney, and the outlook for this industry is very promising. The business this year passed into other hands, Messrs. N. Copeland and F. Wright having taken over the plant, and extensive improvements have been carried out, a recent launching of a tugboat attracting a good deal of attention. Repairs to all kinds of launches, motors, etc., are also done by Messrs. Layard, Swan & Gamble, of Deep Bay.

The Sidney Canning Company's plant is situated at Roberts Bay and operates during the season packing salmon. This is run in connection with other enterprises at Sooke Harbor.

**Residentially.**

For the home-builder, Sidney and district offers exceptional attractions. The climate, while it is similar to Victoria, is miles away, yet is somewhat different, the average rainfall being slightly less, and it has more hours of sunshine, but the greatest feature that is noticeable is the total absence of the cold winds and fogs. The many sheltered bays make the waterfronts very much sought after and many beautiful homes are to be found. Fishing, shooting and motoring can be enjoyed under the most pleasing conditions.

**Agriculturally.**

The district of North Saanich is admirably suited to the production of small fruits, strawberries, raspberries and loganberries flourishing here. For flavor, color and size the fruit cannot be excelled.

Poultry-raising also can be carried on with very much profit, the equable climate being very suitable.

In dairying, rapid and extensive improvements have been made during the past few years. Some very fine herds are to be seen in the district. On account of the climate the Jersey breed is very much in favor.

**Local Organizations.** The Board of Trade is the principal body of the district and was formed about nine years ago, and is now a large membership. Messrs. E. F. Lesage and E. Blackburn, vice-presidents; W. H. Dawes, secretary-treasurer, and the executive council is composed of nine members. The Board meets every month.

Other organizations are the Red Cross Society, which did excellent work during the war, maintaining a branch office in Sidney, besides branches throughout the whole time.

The Women's Institute has a branch also, and is performing useful work.

**Churches, Schools, Etc.** Anglican, Roman Catholic and Union Churches are in Sidney, and each denomination has churches in various parts of the district.

There are three schools in the district, Sidney being the largest with elementary and entrance divisions.

**General Remarks.** As you approach Sidney you pass the War Memorial Athletic Park and Children's Playground, situated on the main avenue, and within a few blocks of the business section. This property, consisting of five acres was secured entirely by local effort principally the proceeds from the Sidney Day celebrations, which is always a big sporting day in Sidney.

A public library is also maintained and is well supported, many of the books having been donated. The library is supplied with books from the Victoria Public Library, an agreement to that effect having been arranged.

There are three public halls in Sidney, and are in almost constant use for dances, lectures, etc.

Sidney is also well supplied with stores, where the resident or visitor can secure practically all domestic and personal requirements.

The largest store is operated by the Sidney Trading Co. Ltd., which was established by Mr. C. C. Cochran about fifteen years ago.

Mr. J. Ritchie, another of the early business men, is the postmaster and general storekeeper.

Other business places are: E. F. Lesage, druggist; P. J. Simister, dry goods merchant; W. Hearn, boot and shoe merchant; W. Stacey, ice cream and confectionery, etc.

Harvey and Blackburn, butchers; P. J. Simister, dry goods merchant; Vernon and Buckfield, feed merchants.

S. Roberts, real estate and insurance; A. Berquist, machine shop; D. Craig, blacksmith; J. Jenner, grocery; H. Ingamells, bakery and meat market.

The Sidney Hotel has been established in Sidney for a number of years, Mr. P. N. Tester being the proprietor.

The surrounding district at Patricia Bay, a retail branch of the Genoa Bay Lumber Co., Ltd., is maintained, lumber being shipped across the inlet by scow.

In the Deep Cove district, four miles to the northwest, there is a general store owned by Mr. Lovick.

In this district there is the motor launch marine railway and repair business of Messrs. Layard, Swan & Gamble, and the motor launch and repair business of Mr. J. D. Hocking.

Among the other industries in Sidney should be mentioned the Baxan Bay Brick and Tile Co., which is now in full operation, making a high-class brick and tile.

Sidney not only enjoys the advantages of a good supply of water for domestic and other purposes as already mentioned, but it has electric light and power available practically throughout the district. It is anticipated that as soon as conditions improve further extensions will be undertaken.

### NO POST MORTEM

A fine plump fowl arrived at the office of a newspaper, and each of the sub-editors made up his mind to annex the bird, but these hopes were cruelly disappointed by the editor himself, who, having espied the winged one, and regarding it as one of his rightful perquisites, promptly took it home and dined off it.

The following morning a letter came to the office from a "Constant Reader," it ran: "Dear Mr. Editor—By an earlier post I sent you a chicken. It has been the source of a good deal of discussion amongst us, and we have decided to let you settle the dispute. What we want to know is, 'What did it die of?'"

The editor has gone on a sea voyage to try and get over it.

### CENSORED

A schoolgirl was required to write 200 words about a motor car. She submitted the following: "My uncle bought a motor car. He was out riding in the country when it busted

going up a hill. The other 100 words are what my uncle said when he was walking back to town, but I know you wouldn't want me to repeat them."—Boston Transcript.

### DAD KNEW

Old Robinson was inspecting his son's "personal account" for last college term. "What do you mean by \$40 for tennis?" "Oh, that's for a couple of rackets I had to have," replied the son. "Yes, I understand, but I think we used to call them bats."

Don V. Parker, Probation Commissioner of Ohio, is willing to concede that an estimate of 50,000 active stills in the state is conservative.

## To relax nervous tension to feel clean-mouthed

# Nature's Aid to Beauty

THE modern girl realizes that the attainment of true beauty is not induced by using harmful cosmetics, but by taking greater care of her health and keeping the blood free from impurities. She knows the health value of fresh air, exercise, correct eating and sleeping—and the morning glass of ENO'S. This world-famous Health Drink cleanses the system in a perfectly natural manner and maintains the supply of rich, pure, blood—thus promoting a soft velvety skin, clear eyes and rosy lips, which are synonymous with perfect health and beauty.

# ENO'S FRUIT SALT

Your druggist sells ENO—get a bottle from him today.

## A Hint Worth Heeding

Don't commence a long country trip without first changing the oil in your car. Old grit-laden oil is not a lubricant—it's an abrasive!

Motor manufacturers say that old oil should be drained off every 1,000 miles. See us about this oiling and greasing service. We provide Monogram, Polarine, Wolf's Head or Mobiloil.

## The "AIMSFELD" DETACHABLE FUEL-SAVER

Confines the fuel in one small compact mass, occupying one-fourth the capacity of the fire-box.

When a larger fire is required, the fuel-saver NEED NOT BE SHUT OFF. Simply kindle fire in the UN-USED PORTION of the fire-box, and if LONG lengths of wood are to be used, the fuel-saver is INSTANTLY REMOVABLE.

Once used, always used, both in Summer and Winter.  
Can be seen DEMONSTRATED IN USE daily at the Victoria Stove Exchange (sole agents), 601 Yates St., opposite the new Capitol Theatre.

## FREIGHTER IS REPORTED WITH ENGINES DISABLED

Los Angeles Harbor, Cal., June 14.—The freighter Harry Luckenbach, of the Luckenbach Line, six days overdue from New York via the Panama Canal, is proceeding slowly up the Mexican coast with her engines partly disabled, according to a wireless report from the vessel received here. The freighter was due here June 8. She left Baltimore May 30. The wireless message sent by Captain Sears stated the vessel would be able to make port without assistance.

## EXAMINATION RESULTS IN RADIO TELEGRAPHY

Ottawa, June 13.—(Canadian Press)—Results of the radio-telegraphy proficiency examinations announced by the Department of Marine include the following successful entrants: E. H. Robson and R. L. Watson, Vancouver.

## PRINCE GEORGE ENTERS SUMMER SERVICE NORTH

Taking the first Wednesday sailing of the season in the Grand Trunk Pacific S.S. service, the steamship Prince George, Captain Morehouse, left the G. T. P. dock at noon to-day for Seattle, en route North via Vancouver.

## LOVEGROVE GIVEN COMMAND OF JAPAN

Capt. W. Dixon Hopcraft Will Transfer to Russia at Yokohama

The C. P. O. S. liner Empress of Japan is reported to have sailed from Vancouver at 2 o'clock this afternoon and is expected to reach this port at 8 o'clock to-night outward bound for the Orient.

Capt. Lovegrove, R.N.R., D.S.O., will in future command the Empress of Japan, as Capt. W. Dixon Hopcraft, R.N.R., will transfer to the liner Empress of Russia at Yokohama, relieving Capt. S. Robinson, R.N.R., who is proceeding to the Clyde to assume command of the new liner Empress of Canada.

The Empress of Japan will have some two hundred passengers in all classes and a full cargo for the Orient. She will remain here long enough to take aboard passengers and cargo at Vancouver and will proceed direct to call on the other side of the Pacific.

The liner Empress of Asia, Capt. A. J. Halley, R.N.R., is now loading at Vancouver and is posted to sail for the Orient to-morrow week. The Asia will take out a large list of passengers. Among them will be John J. Abbott, vice-president of the Continental and Commercial Bank of Chicago, who is going to Japan to investigate commercial conditions.

A little advertisement often carries a big message.

## N. Y. K. BUILDING NEW LINERS FOR EUROPEAN TRADE

S.S. Hakone Maru, First of New Type, to Be Completed in October

Three new passenger and freight liners of 10,000 tons each, similar in design and speed to the liner Katori Maru of the Nippon Yusen Kaisha Japan for the Nippon Yusen Kaisha European service.

The fact that these ships are being built for the European trade is a clear indication that the premier shipping company of Japan is determined to maintain the position it has secured on the North Pacific with the operation of its crack liners by keeping the big fleet on this ocean. The Japanese company has built up a good connection with the trans-Pacific route with the fine liners Fushimi Maru, Suwa Maru, Katori Maru and Kashima Maru, so successful being the operation of these ships on the Pacific run that the company has not considered in recent years the diversion of the fleet back to the European service as was originally mooted.

The new liners which are being built in Japan for the European service are the Hakone Maru, Haruna Maru and Asama Maru. The Hakone Maru is under construction at the Mitsui-Bishi Dockyard, the principal dimensions being: Length 515 feet, beam moulded, 62 feet, gross tonnage, 10,000 tons, sea speed 17 knots. Accommodation is provided for about 120 first class, 50 second class and 150 third class passengers. She will be driven by Parsons turbines with reduction gear. It is expected that the Hakone Maru will be completed about the end of October. The Haruna Maru and the Asama Maru, sister ships, 4350-tonners, will be added to the European fleet at no distant date.

## CANADIAN FLEET AT LOS ANGELES

Los Angeles, Cal., June 13.—Three Canadian warships, the cruiser Aurora, and the destroyers Patriot and Patricia, anchored in Los Angeles harbor, en route from Esquimaux, B. C., to Halifax. The Aurora fired salutes to Port McArthur and to Admiral Williams aboard the flagship New Mexico, of the Pacific fleet. The Aurora and the destroyers will be in port several days before proceeding to Panama.

## Making an Impression On Face of Big Drydock

An impression is now being made on the rocky face bordering on Skinner's Cove, where the contracting firm of Peter Lyall & Co. is actively prosecuting the preliminary excavation operations incident to the construction of the 1,100-foot Government drydock. Rock drillers and steam shovels are busy engaged and the blasting work of the rock face is well started. As the dynamite charges rend the face of the rock a trail of little dump cars is shunted along temporary tracks and the dislodged material quickly removed to a suitable dumping site. The dredging plant is making strides and the contractors are preparing for the construction of the giant timber cofferdam which, when completed, will provide a comparatively dry workspace to carry on the big project. The force of men employed is being gradually increased to keep pace with developments. The new scale of wages for drydock workers, compiled as the result of recent conferences between Dominion Fair Wage Officers Bulger with Messrs. Lyall & Co., is as follows:

**Dredging Crews.**  
Captain ..... \$250.00 per month.  
Leverman ..... 5.00 per day, 8 hrs.  
Fireman ..... 5.00 " " " " " "  
Deck hands ..... 4.50 " " " " " "  
Scowmen ..... 4.50 " " " " " "

**Tugboat Crews.**  
Captain ..... \$210.00 per month.  
Relieving captain ..... 185.00 " "  
Chief engineer ..... 185.00 " "  
Engineer ..... 175.00 " "  
Fireman ..... 4.50 " day  
Deckhand ..... 4.50 " " " " " "

**Skilled Workers.**  
Carpenters ..... \$2.50 per day, 8 hrs.  
Carpenters, bridge ..... 7.00 " "  
Pile driver men ..... 7.00 " "  
Stonecutters ..... 8.50 " "  
Plumbers ..... 7.20 " "  
Steel sharpener ..... 7.50 " "  
Stram and pipe fitters ..... 6.25 " "  
Machinists ..... 6.40 " "  
Engineers ..... 6.40 " "  
Electrical worker ..... 7.20 " "  
Sheet metal worker ..... 7.20 " "  
Painters ..... 5.50 " "  
Rock drillers (machine) ..... 5.00 " " " " " "

**Helpers.**  
Carpenters ..... \$1.50 per day, 8 hrs.  
Blacksmith ..... 4.50 " "  
Machinist ..... 4.40 " "  
Electrician ..... 4.80 " "  
Fireman ..... 4.00 " "  
Laborers ..... 4.00 " "  
Watchmen ..... \$100.00 month.  
Locomotive engineer (donkey) \$125 and board per month.

## DAY EXCURSIONS WILL BE OPERATED TO GULF ISLANDS

S.S. Island Princess Will Make Round Trip to Ganges on Sundays

With the Island Princess as the medium of travel the Canadian Pacific Steamship Company is developing a day trip between this port and the Gulf Islands. Apart altogether from the usual weekday sailings the company now proposes to operate the Island Princess as an excursion boat on Sundays at reduced fares. Commencing on Sunday next the Island Princess will leave the Belleville wharf at 10 a. m. (city time) for Ganges, arriving at 1 p. m., sailing on the return trip at 4 p. m., arriving back at Victoria at 7 p. m.

The Island Princess is a comfortable little steamer especially adapted to the Island service and with the selection of Sunday as the excursion day it is expected that the public will take advantage of this special service. The first excursion of the season to Ganges will be taken by the Island Princess June 19.

## EMPRESS OF JAPAN MAY BE ACQUIRED BY PACIFIC S.S. CO.

A. F. Haines Inspected C. P. O. S. Liner at Vancouver

Vancouver, June 15.—According to word received here to-day from Seattle, the C. P. O. S. liner Empress of Japan, once the pride of the trans-Pacific mail, may become the crack coastwise passenger and freight carrier for the Pacific Steamship Company, replacing the steamship Governor in the Seattle-Victoria and San Francisco service.

A. F. Haines, vice-president of the Pacific Steamship Company left Vancouver Tuesday night, after spending two days here inspecting the liner.

The vessel, according to the report is held at approximately \$150,000. The C. P. O. S. will replace the Japan with the Empress of Canada and the Empress of China.

## PROTEST SIGNING OF AGREEMENT

San Francisco, June 15.—Resolutions protesting against the agreement signed by their national officers with the United States Shipping Board at Washington were adopted at a meeting last night of the San Francisco local of the Marine Engineers' Beneficial Association. Upward of 500 members were present.

**Opposition by Owners.**  
New York, June 15.—H. H. Raymond, president of the American Steamship Owners' Association, late yesterday telegraphed Chairman Lasker, of the Shipping Board, asking him not to sign a strike settlement agreement with union engineers.

**Agreement Signed.**  
Washington, June 15.—Shipping Board officials are understood to have signed yesterday the wage and working conditions agreement with the Marine Engineers' Beneficial Association, which was signed yesterday by W. S. Brown, president of the Association.

While no formal announcement was made at the Board's offices, it was learned that efforts were being made to have the private ship-owners sign the agreement also, thus bringing to an end the nation-wide marine strike which began May 1.

**To Abide By It.**  
New York, June 15.—Local branches of the Marine Engineers' Beneficial Association voted yesterday to abide by the agreement, thus bringing to an end the nation-wide marine strike in effect many weeks.

## MERCHANTS EXCHANGE OFFICIALLY OPENED

Shipping Bureau Opened at Vancouver To-day by Lieut.-Governor

Vancouver, June 15.—The Vancouver Merchants' Exchange was officially opened at 2 o'clock this afternoon by His Honor Lieutenant-Governor W. C. Nichol, for a marine and general business exchange. It has a powerful wireless installation on a 24-hour number of the best commercial telegraph information bureaus. Ships' movements, market conditions and general world information will be furnished members, and it is expected the organization will prove a distinct benefit to business interests of the port.

## Keeps Motors Smooth Running

Quality maintains economy. You may pay less "per gallon" for other lubricating oils but you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

USERS of Imperial Polarine Motor Oils enjoy a singular freedom from engine trouble, which is at once a source of profit and pleasure to them. Every bearing and rubbing surface is cushioned with an unbreakable oil film which relieves friction and minimizes wear. Good compression is also maintained, saving both fuel and oil and increasing power. Lessened repair bills, lower upkeep costs, better satisfaction and longer service from your car follow the use of Imperial Polarine Motor Oils. Consult our Chart of Recommendations for the grade of Imperial Polarine best suited to your motor. See Charts at your dealers or write to 56 Church Street for "Automotive Lubrication," a booklet which contains the Chart and other valuable information.

## IMPERIAL OIL LIMITED

Branches in all Cities

## FOR A CLEAN EFFICIENT MOTOR

The crank case of your motor should be drained, cleaned and refilled with fresh Imperial Polarine every 1,000 miles or less. Dealers who display this sign give expert crank case-cleaning service, using Imperial Flushing Oil, a scientific cleaning agent which removes all dirt, grit and impurities, which are so harmful to your engine. It will pay you well to employ Imperial Polarine Crank-Case Service to-day.

### GRAIN IN ALBERTA.

Edmonton, June 12.—An increase of nearly 200,000 acres in the 1931 grain area of Alberta is now estimated by the Provincial Department of Agriculture. The total is put at 1,431,544 acres, distributed as follows: Wheat, 430,358, an increase of 20 per cent.; barley, 624,905, an increase of 30 per cent.; oats, 2,317,278, a decrease of 25 per cent.

## BRIEF LOCALS

Closed for Repairs.—The Public Library, Miss Stewart states, will be closed all day Thursday, for repairs.

Camera Tripped Found.—The police are now holding a camera tripod and leather case that has been turned in to them at the local station on Flanagan Street by the finder. The owner can have the tripod and case upon proof of ownership being furnished.

Saanich Police Court.—The regular weekly session of the Saanich police court was held to-day at the city police chambers, commencing at 2.30 o'clock. Several alleged offences under the motor act and one liquor case came up for hearing.

Native Sons of Canada.—The Native Sons of Canada, recently organized here, will hold a meeting in the Board Room of the Belmont Building at 8 o'clock to-morrow night. All native born Canadians of British parentage are invited to join the organization.

Veterans of France.—The monthly meeting of the Veterans of France will be held on Thursday evening at eight o'clock, preceded by a meeting of the executive at 7.15. Several matters affecting the association will come up for discussion, and a good attendance is requested.

Reward Offered.—The Society for Prevention of Cruelty to Animals is offering a reward of \$25 to anyone who will give information leading to the conviction of a person, or persons, unlawfully laying poison, or poisons, to this effect have been posted in the city and districts.

Scoutmasters to Meet.—This evening will be held the regular monthly meeting of the Victoria Scoutmasters at room 221 Pemberton Building at 8 o'clock, and it is hoped there will be a good attendance. The chief item of interest will be the District Camp which is to take place this Summer.

Judgment Reserved.—In the action of Holmes versus Gowan in the County Court yesterday before His Honor Judge Lammiman judgment was reserved. The plaintiff is suing for \$47 on account of milk claimed to have been supplied to defendant in 1915. W. P. Marchant appeared for plaintiff, with W. C. Moreau for the defendant.

Victoria Farmers' Institute.—An important meeting of the Victoria Farmers' Institute will be held on Friday evening in the Strawberry Vale Hall, commencing promptly at 8 o'clock. The meeting was to have been held last week, but owing to a number of the speakers being absent from the city it was postponed for one week.

In County Court.—The suit of the Exchange versus Phillips opened in the County Court today before His Honor Judge Lammiman. L. Keefe is appearing for the plaintiff, and C. White for the defendant. This action is one in dispute over commission on business done alleged to be due by plaintiff.

Naval Cadetship Examination.—On the Rev. Dr. Campbell is supervising this week at the post office building examinations for entrance to the Royal Naval College. Eleven candidates are writing. They come from schools and private teachers in different parts of Vancouver Island. They are a fine class of bright, intelligent lads.

Will Discuss Police.—The Esquimalt Police Commission will meet at eight o'clock to-night to take up the matter of filling the vacancy on the Esquimalt police force occasioned by the resignation of ex-Chief James Palmer. Reeve Lockley, chairman of the commission, will officiate. The meeting is to be held in the Esquimalt Municipal Hall.

To Hold Garden Party.—The Metropolitan Mission Circle will hold a garden party at the home of Mr. R. Colpitts, 1817 Cook Street, on Saturday afternoon and evening, June 25. There will be candy, ice cream and home cooking booths, and afternoon tea will also be served. Sports will be a feature of the afternoon, and a concert in the evening. An enjoyable time is promised all who attend.

Arranging Berry Sales.—Organization of the canvassing campaign, whereby the Saanich Fruit Growers' Association will interest the housewives of Victoria in home preserving, has been placed in the hands of H. N. Lamont, of Keating, whose headquarters will be at the corner of Pandora Avenue and Cook Street. Mr. Lamont is well-known in Victoria, as for many years he was a representative of the Singer Sewing Machine Co. In addition to supervising the work of the returned soldier canvassers, Mr. Lamont will devote special attention to the organization of the delivery system, in order that ladies trying the experiment of dealing direct with the growers of strawberries may be assured that their fruit has suffered the minimum of delay between the fields and their kitchens.

## TENNIS STROKES AND POSITIONS EXPLAINED

President Garrett, of the Victoria Club, Gives Members Fine Instruction

For the first time in the history of the Victoria Lawn Tennis Club a lecture on tennis strokes and positions has been delivered. Very considerable interest was aroused by the announcement that H. G. Garrett, president of the club, would give this lecture, and last Saturday afternoon, as soon as the lecture was announced by the secretary from the pavilion, every player on the sixteen courts assembled at No. 1 court to hear it, showing the keen interest the members have in the game and their strong desire to know more of it.

Mr. Garrett gave a very interesting talk of about half an hour's duration, commencing from the very beginning of tennis, demonstrating how to hold the racket, and position the feet, and the most correct stance at the base line. He dealt with the subject in a clear and concise manner, making it so plain that the youngest tyro at the game would understand.

At the conclusion Mr. Garrett received a hearty round of applause, after which he was pelted with questions, all of which he answered very promptly.

It is safe to say that this is the first occasion, in Canada at least, that tennis players have been given the privilege of such a demonstration and it is one that might be copied with profit by other clubs.

The club's handicap events commence next Saturday afternoon. Entries close on Thursday evening at 7 o'clock and it is expected a very large entry list will be secured. The entries for the junior championships, which commence on June 25, will close of Thursday, June 23, at 7 p.m.

## ROSE PEST DISEASES

Good and Bad Bugs Afflict Queen of Garden; How to Protect Bushes and Bloom.

Of all garden plants, the rose bush suffers the most from insect pests. The Aphid, or plant louse, is the most common. It should be attacked just as soon as it appears as it increases with marvellous rapidity. Spray at once with tobacco water and when the aphid is gone, there are a number of other good insecticides on the market, such as Abol and "Black Leaf 40", Nicotine.

The rose beetle, a little copper brown insect, is very destructive. They are found in the heart of the flower. Slugs are found on the under side of the leaves and may be detected by the skeletonized appearance of the leaf. These are the larvae of the saw fly, which is busy in early June laying its eggs on the leaves. Hand picking or the application of arsenate of lead—half a pound to five gallons of water, or a tablespoonful of powdered white kerosene to two gallons of boiling water; applied when cool with a whisk broom on the under surface of the leaves.

The leaf hopper begins early in June and continues throughout the season. When the upper surface of the leaves show minute yellow blotches a glance on the under side will reveal this insect. They are very small active light yellow hoppers, or "thrips". They suck their food from the inside of the leaves.

The caterpillars of several moths cause endless trouble. Searching for them and destroying them before they do much damage seems to be the best remedy. Leaf-rolling saw fly, partial to climbers, is one of the worst.

The white egg may be found glued to the edge of the leaf which has been curled inward, and ultimately dies.

The leaf-cutting bee cuts curious circular pieces out of rose leaves, and they are made into cells for raising the young bee in. This thimble shaped cell is provisioned with honey and pollen, the egg is laid, and the cell closed with leaf fragments.

Useful insects.

There are a large number of insects popularly known as "good bugs". They and their larvae prey upon aphids, from whose bodies they suck the juices. The well known lady-bird beetles and their larvae feed upon aphides and scale insects.

The syrphus flies resemble wasps and bees, and their larvae feed upon the aphides. The Ichneumon fly lays its eggs on the bodies of caterpillars, upon which the larvae feed as parasites, and are thus of great service to mankind.

Value of The Bi.

From an economic standpoint, birds must be given first place. They are the chief destroyers of agricultural pests in all parts of the world. Even the poor despised English sparrows devour millions of green worms, and among the most useful friends. Who would not rather have the chatty little bird than be pestered by countless hosts of caterpillars eating everything green in sight and dropping in myriads from the branches of the trees.

Diseases of The Rose.

The rose is subject to a hundred or more fungous diseases. The Black Spot is the most widespread. The foliage when attacked develops black spots, and the leaves become elsewhere pale, and fall to the ground. It is a microscopic fungus, and is held in check by spraying with a weak solution of bordeaux mixture on lime sulphur.

Rose-leaf Blight has large irregular blotches of grey color surrounded by a margin of dark purple. The standard fungicides should be used to check it.

Mildew is recognized by the powdery coat it develops. It grows rapidly, and comes from spores which falling upon the surface of the plant will quickly germinate and produce a webby coating on the foliage. The spores are easily reached by fungicides and destroyed without difficulty. Any of the ordinary sprays will answer.

The Rose-rust attacks more especially hardy hybrid varieties. The fungus appears in late Spring on the leaves and young shoots, forming powdery orange patches. The soil around the plants may be saturated with a solution of sulphur or copper in water—two ounces to three gallons or a weak solution of dilute bordeaux mixture, before the buds expand in the Spring.

When a rose is badly infested it is better to cut the whole plant away.

## Classified Advertisements

Classified advertisements in the newspapers offer to the business man or woman many opportunities that cannot be duplicated through any other medium.

It is the mission of the classified ad to act as a sort of Master of Ceremonies between the man who has and the man who wants.

In the past few years classified advertising has attained that degree of efficiency that is successful salesmanship.

The "tired business man" who uses the classified advertisements is the chap who isn't "tired" any more, and who has time to do the many things he used to be "too busy" for.

Phone 1090, Advt. Dept., Times.

A weakened spray of lime sulphur upon the leaves and stems prevents in a large degree the entrance of many germs.

The extensive list of troubles which beset the rose should not, however, frighten the beginner. One can often master most of the serious enemies with a hoe. As a rule pests thrive best under worst conditions, and if roses are taken care of they will certainly pay for your watchfulness.

The town of Neuchâtel recently made a substantial loan of \$15,000 for the purpose of road construction through that town.

J. D. Graham, president of the British Columbia Horticultural Society, is holding a list of the names of the members of the society.

Price of milk in Victoria has dropped from 14 to 12 cents.

# at the Theatre

COLUMBIA

When Sessue Hayakawa, the Oriental star, went before the camera in the role of Vasco Lopez, the Spanish bull-fighter who is the central character of "The Brand of Lopez," he began the impersonation of one of the most interesting figures known to the modern world of sport, the professional matador, or highest class of bull-fighter.

In this Robertson-Cole picture, which is to be seen at the Columbia Theatre, one gets a vivid idea of the standing of the bull-fighter in Spain and of the modern status of this ancient, and, by most of the world, condemned sport. For ancient it is a form of bull-fighting was known in ancient Thessaly, as well as among the Romans. But this was a mild form, like the bear baiting of England. The bull is never killed in any other modern country but Spain.

## VARIETY

The movies have proved themselves quite the Seven League Boots to the theatre, and now the "old days" are those of not so long ago when should one fail to see some great play during its often too brief run on the stage, the golden opportunity was forever lost. Nowadays one may say with added assurance, "Oh, I must see So-and-so in his great play, So-and-so," and in the event that the light comedy, the frivolous farce and the lighthearted musical become so obtrusive that the serious drama goes "by the board," there is still

## AMUSEMENTS TO-DAY

Columbia—"Brand of Lopez."  
Variety—"The Devil."  
Royal—"Gypsy Blood."  
Dominion—"Paying the Piper."  
The George Park—Peggy's Pierrots.  
Cabaret—Winter Garden.

time, for behold, the Movies! Few plays created greater stir in their day than Franz Molnar's "The Devil," which George Arliss played on the stage. Since those days back in 1908 the name of Arliss has been associated immediately with "The Devil" and those who saw the performance have no trouble in gaining the floor during conversation on the theatre. But now things are changed and "The Devil" with George Arliss in the name role and as beautiful a setting as all the genius of the pictures can achieve may be seen on the screen at your favorite motion picture house. This latest shining example of motion picture enterprise was produced by Harry Leonhardt and Andrew J. Calhoun for Associated Exhibitors, Inc., and for distribution by Pathe.

## PRINCESS

To-night the Mildred Page Players will present another delightful musical offering, entitled "The Runaway Match," and so full of the spice and pep of the up-to-date style of play that there is never a dull moment. Some of the newest popular song hits will be introduced as well as some old favorites. The entire cast will appear to advantage, and everyone who attends will enjoy the surprise which Mr. Elton has in store for them. To-night is prize night again, and the one who has guessed nearest the correct number of words spoken by Mr. Aldenn in "All the Comforts of a Home," last week will receive \$5. "The Time, the Place and the Girl" was chosen as the next play, but there has been a delay, and the script may not arrive. However, the best procurable will always be given, and every detail will receive careful attention, and from start to finish the production offered by the Mildred Page Players will always be aimed for a standard set by them since their arrival in Victoria. "The Runaway Match" will be presented to-night and the balance of the week, including a Saturday matinee.

## ROYAL VICTORIA

The feature film offering at the Royal Victoria Theatre this week is the widely heralded continental film, "Gypsy Blood," starring Pola Negri, acclaimed as Europe's greatest screen actress, who made her first cinema triumph in America in "Passion." And if advance reports are to be believed, this latest vehicle of the emotional Polish star is fully as wonderful a production as its predecessor.

"Gypsy Blood," it is said, has been produced on the same impressive elaborate scale that was employed in the making of previous productions. Thousands appear in the various scenes.

It is a screen version of Prosper Merimee's original French story of "Carmen," and Pola Negri is seen in the role of the bewitching Gypsy girl whose love and hate change color like the chameleon and leave in their wake a trail of joy and sorrow.

Harry Liedtke, who was Armand De Foix in "Passion," is again seen playing opposite Pola Negri. In the role of Don Jose Navarro, the Spanish dragon, who sacrifices honor, robe and even kills for love, he becomes the victim of La Carmencita's entrancing smiles.

In addition to the above feature two well known local artists are on the programme T. Kelway singing "The Gypsy Love Song," A. Butterworth singing "The Toreador," and a duet by Butterworth and Kelway "La Paloma."

## DOMINION

Ouida Bergere, who has written the scenarios of the George Fitzmaurice productions for Paramount, adds another feather to her cap as the author of "Paying the Piper," the magnificent picture which will be the feature at the Dominion Theatre this week. "Paying the Piper" is the last scenario she completed before she went abroad for the Paramount organization.

In her latest story, Miss Bergere presents characters typical of the monied classes of New York, persons who believe that everything worth while can be obtained by money, and who ignore all of the real things of life. How they lose their wealth and are regenerated when they are forced to put a value on love, friendship and other human qualities, makes a picture of universal appeal.

The production has been dressed up with unusual lavishness. Leading roles are played by Dorothy Dickson, the famous dancer, Rod LaRoque, Alma Tell, George Fawcett, Robert Schable and Reginald Denny.

## GOOD PROGRESS ON PASTORAL PLAY

Monday, Tuesday and Wednesday, June 27, 28 and 29, will witness one of the biggest productions of its kind ever given in the West. The "Pastoral Play" is a production of over a hundred people will present the Greek legend, dance on the birth of Perseus, at the Gonzales Gardens on St. Charles Street. It is not an all-Victorian production, the talent is drawn from all parts of the city; both the authors and producer are made in this city. Some new talent will appear in the play, appearing in the beauty chorus, and in prominent parts of the translation. Excellent photographs of several groups of the performers which will be used in the souvenir programme, have been made by Alexander McPhillips, son of Mr. Justice McPhillips.

## EX-MAYOR WILL PRESIDE AT CONCERT TO-NIGHT

Ex-Mayor A. Stewart will preside at the concert to be given under the auspices of the Ladies' Aid of First Presbyterian Church at the Lecture Hall to-night.

The programme from start to finish will be provided solely by several of the best-known gentlemen artists of the city. These excel in giving both classical and comic selections. In this instance, however, both will be satisfied, and all who enjoy a good laugh should not fail to be present and in their seats in good time, as the hall is likely to be well filled. The entrance price is normal, and the proceeds go to assist in liquidating the church debt.

The following is the programme:  
Vocal Solo—"The Trumpeter"  
Vocal Solo—"The Norwegian Song"  
Vocal Solo—Selected  
Vocal Solo—Selected  
Vocal Solo—"Excelsior"  
Vocal Solo—"Shine, Moon, Shine"  
Vocal Solo—Selected  
Vocal Solo—Selected  
Piano Solo—"His Own Composition"  
Vocal Duo—"We Love Another"  
Vocal Duo—"Trauerlied"  
Vocal Solo—"Lorraine"  
Vocal Solo—"Lorraine"  
Vocal Solo—"Lorraine"

## WAS A SURPRISE TO MRS. GRENALL

Westminster Woman Says Tanlac Is Far Different From All Other Medicines

"I recovered my health a year ago by taking Tanlac and will say for the medicine that the good effects have continued ever since," said Mrs. J. Grenall, 1306 Caribou Street, New Westminster, B. C.

"My troubles began with influenza, which left me in a badly run down condition and with a poor appetite and stomach all upset. Nothing would do to me, and at times even the smell of things cooking nauseated me. I suffered a great deal from shortness of breath and palpitation of the heart, and so use of liquor in the home was a duty to do so in this case for the benefit of those who suffer like I did. I am convinced that Tanlac will help anybody who is run down, and who has lost their appetite. Tanlac is sold in Victoria by D. E. Campbell and all druggists. Adv.

Young vandals of Woodstock will be prosecuted for their sport of shooting holes in canoes at South Lake Park.

## LETTER FROM

MRS. WAKELIN

Tells Remarkable Story of Sickness and Recovery

Toronto, Ont.—"I suffered greatly from weakness, seemed to be tired all the time, and had no ambition to do anything or go any place. My nerves were in bad shape. I could not sleep at night, and then came a breakdown. I read of Lydia E. Pinkham's Vegetable Compound in the newspapers and several of my friends advised me to use it, and it surely put new life into me. Now I am quite able to do all my own work, and would strongly advise every suffering woman to give Lydia E. Pinkham's Vegetable Compound a trial."

Mrs. Charles Wakelin, 272 Christie St., Toronto, Ont.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above, and have been obtained for love or money. This medicine is no stranger—it has stood the test for more than forty years. If there are any complications you do not understand write Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Adv.

## WEST SAANICH INSTITUTE.

The members of the West Saanich Women's Institute held their annual Guest Day yesterday afternoon at their rooms, Sluggett's Station, when a large gathering of members from the neighboring institutes and other friends attended. Proceedings opened with a brief business session, at which Mrs. A. Guy presided, and plans were made for a flower show and child welfare exhibit to be held on July 4 in the West Saanich Road schoolhouse. An interesting address on "The Responsibilities of Freedom" was given by Mrs. Will Griffiths, followed by a delightful musical program.

cost of the male potential which is transmitted by the father to the daughter in trust for the male line. Athletic women produce female offspring mainly and seldom have sons. When sons are born to them, they are apt to be puny and delicate, or generally emaculate or of inferior type. The cultured classes, who are mainly afflicted by athletic training, are failing to provide sons of the fine physique and the many talents and initiative which have set our Anglo-Saxon race in the van of evolution.

Miss Cowdrey, the principal of a girls' high school, who moved the resolution of protest, said that the girls who had been trained to play hockey, cricket and football suffered at childbirth. Sometimes the child suffered, sometimes the mother and sometimes one of them died. Eighty per cent of the girls she had known who had been trained to become gymnastic mistress had been in capacitated for motherhood.

Nervous Energy.  
A girl had a large store of vital and nervous energy which she could draw upon if normally developed at the great crisis of motherhood. That strength was a deposit account, but it she used as a current account, as if she would pay the bill. She believed that the Victorian girl was a better mother than the modern athletic girl.

Miss Radmar, director of Physical Education, said that the feet were the only part of a girl's body that need be made strong. A woman's body should be elastic and strong, chests and big muscles meant inelastic chests and bodies. Drill apparatus should be done away with. Mrs. Roger Watts pleaded for the teaching of poise. "Let us go back to the Greeks," she said, "to the system which was the most wonderful ever known."

That he has a fortune of \$259,000 and a wife and children at Houston, Texas, was the information received by J. W. Counts, aphasia victim held in jail at Wheeling, W. Va. He had been missing from home four years.

## JUDGMENT RESERVED IN WINDING UP CASE

Court of Appeal Now Hearing  
Marshall vs. Canadian  
Pacific Lumber Co.

Judgment was reserved by the Court of Appeal this morning in Johnston Bros. and the Winding Up Act, wherein Ernest Munton appeals against being placed on the list of contributors.

The company was formed under the Dominion Companies Act in 1908 and on January 24, 1919 an order was made to wind up the company. On June 15, 1920 the Registrar put Munton on the list of contributors. An appeal was taken and Mr. Justice Macdonald sustained the Registrar's decision and from this the present appeal is taken.

It appears that Munton gave a note and collateral for \$3,000 and the collateral realized only \$2,500. It is later stated that the note was given for \$2,500 and that the collateral was given in full settlement.

The case of Marshall vs. Canadian Pacific Lumber Company is now proceeding. This is an appeal from an order of Mr. Justice Morrison made in Court directing the receiver to convey to the purchaser at an auction sale of property of one of the defendant companies property not contained in the particulars on which the sale was made. Marshall is the appellant and both he and the defendant are represented by P. T. Congdon, K. C. Mr. Alexander appearing

for the vendor and Mr. Symes for the purchaser.

The Dominion Trust vs. Brydges suit in the Appeal Court yesterday was ordered put at the foot of the list if the present sitting of the Appeal Court when it was found that the appeal book for the action was not in order. The appeal is taken by the defendant Brydges from an order in favor of the respondents made by Mr. Justice Murphy the Toronto General Trust Corporation interveners in the first suit Sir Charles Tupper, K. C., appeared for the respondents W. Joseph Martin, K. C., and H. W. Bucke appeared for the appellant.

**Royal Bank vs. Skene.**

The appeal in the case of the Royal Bank vs. Skene was dismissed. The Justice McPhillips dissenting. The appeal was made on in connection with costs taken by the bank from a decision of Mr. Justice Gregory. Alfred E. Bull appeared for the plaintiff and J. E. McMullen for the defendant respondent.

## FOUR BURNED TO DEATH IN ALBERTA

Calgary, June 15.—Mrs. J. J. Rutledge and her four children were burned to death last night in a fire which destroyed their home eight miles southeast of Innisfail. Mr. Rutledge, Mrs. Rutledge's sister and another child escaped. The origin of the fire is a mystery. The provincial police are investigating.

Chicago, June 15.—The Farmer-Labor Party will send a commission to study conditions in Russia, this summer if the necessary arrangements can be made. It was announced at the party headquarters to-day.

## SAYS CITY CANNOT AFFORD ROCK BAY BRIDGE AT PRESENT

Mayor Asserts Reports Use-  
less While Money Not  
Available

Mayor Porter announced this morning that he was opposed to new Rock Bay Bridge project which, he declared, would cost more than the city could afford at present.

"It is very apparent to me that we have got to save every cent we can from now on, in view of our financial difficulties, and my trip to the East convinces me more and more of the necessity," the Mayor stated. "We certainly cannot afford to expend large sums of money to install a bridge across Rock Bay. On this account, it seems to me that it is useless for us to keep getting reports on the project from the City Engineer when the financial outlook in the city is so gloomy."

"There is no use in going ahead with the proposed scheme and installing the centre span of the Johnson Street bridge in the middle of Rock Bay while we are unable to pay for the cost of establishing approaches to that span. The present approaches are useless. In the case of the old Rock Bay bridge is any good for anything."

"Moreover, we can't continue dumping of filling at Rock Bay. The bridge approaches without constructing expensive retaining walls to prevent this filling sliding down into the water. The Federal authorities certainly would not allow us to do that and we haven't money to pay for the installation of retaining walls at present."

"It is argued," the Mayor remarked, "that we must do work at Rock Bay in order to make ready for the installation of the old Johnson Street bridge there. I confess I can't see the absolute necessity of that. The old bridge would not deteriorate any more if it were taken to the city's yards and there until we could see the absolute necessity of that. If we put it in a safe place we could take it and use it when we have money to build the foundations for it at Rock Bay. Until we have money to install approaches and so on I can't see the use of going ahead."

## CANADIAN CATTLE SENT TO BRITAIN

Further Shipments For British  
Market

Ottawa, June 15.—(Canadian Press) The steamer "Lionel Lincoln" is carrying 153 cattle and 600 sheep from Canada to Avonmouth, England, the cattle being of high quality and averaging 1,250 pounds. The "Lionel Lincoln" is one of the Canadian Merchant Marine, loaded 120 cattle and fifty sheep on June 10 for London.

According to the Livestock Commissioner there is very little movement in the wool market. Graded wools are quoted at last week's prices. Local buyers' quotations for grease wools of different qualities range from five to thirteen cents. Washed wools are quoted at about thirteen cents.

## CHINESE WRECKED AMERICAN MISSION

London, June 15.—The American mission at Wu Chang, China, has been wrecked by Chinese rebels, according to a News Agency dispatch from Hankow. The Chinese rebels, the dispatch said, looted and burned much property. There were many Chinese casualties, but so far no foreign casualties have been reported.

## COAL PROBLEM IN WASHINGTON

Tacoma, June 15.—Reduction in cost of production and distribution of coal mines in the State of Washington is forecast here following a meeting of the State Coal Commission, held here in an effort to devise means, if possible, of reopening state coal mines, closed since the workers walked out last March.

With coal bunkers in Tacoma reported practically empty and a similar situation said to exist in other parts of the state, the Commission expressed the fear yesterday that a crisis will be reached next winter unless arrangements are made now to provide for the demand to come later.

## BIG SCHOOLS OF ATLANTIC MACKEREL

St. John, N. B., June 15.—Immense schools of mackerel are heading in the direction of the Gulf of St. Lawrence and the Strait of Northumberland.

Catches totalling a quarter of a million pounds of the fish have been landed at Shippeigan during the last few days, according to J. G. Robichaud, M. P. P.

## TUG ABOVE FARMS CUT OFF POWER

Bellingham Temporarily Lost  
Electric Current

Vancouver, June 15.—Floating over farm lands, Noah's Ark-like, the tug Flyer caused a shortage of power in Bellingham.

The craft was steaming down the Fraser River when she went off her course and hit the Stave Falls power line, putting the line out of commission. After repairs the power service was restored.

"The 50,000-volt line to Bellingham is tied up," was the report sent into the head office of the B. C. Electric Railway Company here.

The tug Flyer went of her course on account of the flood water and, proceeding over farm lands adjacent to the river, struck the power line.

## AMERICAN IRISH DIVIDED IN VIEWS

Denver, June 15.—Sympathizers with the Sinn Feiners and the Irish "republic" idea replied to the warning sounded yesterday by J. H. Thomas, British labor leader, that organized labor of America could not solve the Irish question by introducing resolutions at the convention of the American Federation of Labor demanding action on the part of the convention supporting the Irish "republic."

"Pleading to get recognition of a resolution" drafted by the committee appointed by a mass meeting of Irish sympathizers, representatives of the Irish "republic" presented two resolutions demanding boycott of English-made goods and concerns in this country by American workers.

The boycott resolutions, presented by T. J. Vind, secretary of the labor bureau of the American Commission on Irish Independence, have caused the split among the Irish sympathizers.

While they are reported to have been drawn by "high officials of the Irish republic," they failed to get the support of the delegates who signed the resolution drafted by a committee of Irish sympathizers.

## AN OTTAWA GIFT TO THE DUCHESS OF DEVONSHIRE

Ottawa, July 15.—The wives of the Federal Cabinet Ministers yesterday presented as a farewell gift to the Duchess of Devonshire a silver casket with the Canadian coat of arms enamelled thereon and lined with gray satin. The presentation was made at Government House by Lady Foster, wife of the Acting Prime Minister, in the absence of Mrs. Meighen. Lady Foster expressed the regret of the Cabinet Ministers that they were unable to be present.

The Duchess and her party, consisting of the Duchess and her party, arrived in Ottawa during the time of storm and stress through which we have passed together.

## HARDING'S CONDOLENCES.

Washington, June 15.—President Harding to-day sent a message of condolence to President Zayas of Cuba on the death of former President Gomez.

## DISEASE KILLS OFF BEES IN BRITAIN

London, June 15.—The British beekeeping industry is threatened with disaster, owing to the prevalence of disease among the bees.

England, whose bee-keepers formerly provided enough honey for the home markets, now imports 50,000,000 worth of honey a year.

Bee men declare that instead of importing this amount, England should produce 30,000,000 worth of honey annually, thus having a quantity to export.

## WAR MEMORIAL IN SACKVILLE, N. B.

Sackville, N. B., June 15.—Sackville is to erect a granite shaft in honor of its soldiers who fell in the Great War. The Council has been approached by representatives of almost every society in the town toward this end, and plans for the work are well under way. It was decided not to grant money for the memorial from the civic funds, but to raise the requisite amount by public subscription so that everyone might have a voluntary share in the work.

## U. S. INVESTIGATION.

Washington, June 15.—Investigation by the Department of Justice of all major war-time contracts with the Government has been begun, Attorney-General Daugherty announced to-day.

## B. C. BONDS SOLD

\$3,000,000 Issue Finally Disposed Of;  
Will Yield Investor Good Return.

Sale of the \$3,000,000 of B. C. bonds, for which the Department of Finance has had trouble during the last few weeks in obtaining satisfactory bids, has been completed, with Ames & Co., Toronto, taking the issue at \$111. The bonds are six per cent, 20 years, payable in Canada only. The return to the investor will be 6.61 per cent. The money will go for roads under the Federal aid scheme and for general purposes.

Bids from the United States were called for, but although American firms have taken all recent issues of the B. C. Government, the only one of this one were not at a price which was considered reasonable. Bids were made for private arrangements with Seattle, Chicago and other Canadian cities, but the figure for which the last Government loan was sold at a little over par in New York, but there was no success.

## OBITUARY RECORD

The funeral of the late John McGraw will take place on Friday at 2.30 p. m., from the B. C. Funeral Chapel. The Rev. Robert Connell will conduct the service.

## FIGHTING LAST NIGHT IN BELFAST

False Cries of Murder Raised  
Later

Belfast, Ireland, June 15.—A feature of the Belfast disturbances disquieting to the authorities is furnished in what they termed to-day a concerted attempt to keep alive the disorders.

Several police barracks notified military headquarters at 1.40 a. m. that whistles had been blown and revolvers fired and cries of murder raised in their districts, followed by genuine screams of panic from women and children who associated the noises with the reprisal raids. Shooting occurred early to-day in the streets affected yesterday evening.

The worst fighting last evening was in the Maze of streets radiating from Conway Street in the Falls district. Irish "Republican" soldiers, armed with revolvers, took positions on roofs and at other vantage points. Sand-bag barricades furnished shelter for others, behind which they were safe from the bullets of the crown forces, while gunmen kept up a continuous fire. The police, when the barricades were stormed it was found that the defenders had quickly retreated.

## INTELLECTUAL SNOBS ARE CONDEMNED

Evanston, Ill., June 15.—Walter Dill Scott, president of Northwestern University, said that the majority of college graduates are intellectual snobs, when he assailed modern educational methods to-day.

"Most boys and girls think education a disease," he said. "They go promptly to school, receive a diploma and become intellectual snobs. The remedy is a more thorough study of human nature, a study that is sadly neglected. That's one thing I am going to supply at this university."

Although Prof. Scott was chosen head of the institution last Fall, he was not formally inaugurated until to-day.

## SEATTLE JULY 4 RAIN INSURANCE

Seattle, June 15.—The Home Insurance Company bet \$12,000 yesterday that it will not rain more than a tenth of an inch in Seattle between noon and 8 p. m. July 4.

The Fourth of July Committee bet \$480 that it will.

Henry Broderick, Inc., holds the stakes.

This is the first time rain insurance has been issued in Seattle in any such amount. Before placing its wager, which it did on better odds than Lloyd's, the great British risk taker, the insurance company made a searching inquiry into the precedents, antecedents and proclivities of Puget Sound Summers.

## DANCE HALL MAN ROUNDS SCORES MODERN DANCES

Chicago, June 15.—J. Louis Guyon, owner of the largest public dance hall in Chicago, went before the Episcopal clergymen of the city and asked them to do all in their power to suppress "modern dances" and jazz music.

He was unsparing in his denunciation of the toddle and shimmy and the camel walk. He blamed society leaders for setting the example in dancing and music.

"And there," he added, "lies the remedy. Preval on our society leaders and the people who set the styles to refrain from attending any gathering where men and women wriggle to the noise of a jazz orchestra, and much will be accomplished in the eliminating of indecent dancing," he concluded.

He closed the latest wiggles with "white mules," but said that such dancing as the waltz and two-step is the "poetry of music."

## CHITA MINISTRY JOINS BOLSHEVIKI

Vladivostok, June 15.—Reports received here declare that the Government of the Far Eastern Republic has decided to join Soviet Russia.

Anti-Bolsheviks have destroyed bridges across the Amur River, between Blagovestchensk and Khabarovsk, and Communists have taken over the ordinary villages taken over by the insurgents.

## REPORT ADDISON RESIGNED UNTRUE

London, June 15.—A report that Dr. Christopher Addison, formerly Minister of Health and since last April a Minister without portfolio in the Lloyd George Cabinet, had resigned this morning, was denied by Dr. Addison in a statement issued this afternoon.

## FREIGHT RATES DEFEAT RAILWAYS; AUTO TRUCK USED

Gagetown, N. B., June 15.—When Rainford Mason, of Houlton, Maine, decided to transfer all his Lanes and Penates from that city to Jansong, N. B., he found that the railway freight rates were not at all to his liking. In consequence he loaded everything he possessed on a big auto truck and started for Canada. He made the trip to Jansong without mishap, saved his furniture from the perils of the freight car, and he added some money also.

## ROTARIANS RECEIVE MESSAGE FROM KING

Edinburgh, June 15.—The King has sent a message to the International Rotary Club, which is in session here, expressing his thanks for the greetings of the association and also confidence that the deliberations will prove of material benefit to the countries represented.

## Easy Way to Remove Freckles and Blotches

Some women have skin of such texture they occasionally are annoyed by the sudden appearance of freckles, slight eruptions or blotches. Sun and wind usually play havoc with skins of that kind. In such cases the trouble can be easily overcome. When the wax is washed off the next morning, flaky outer particles come with it. The entire skin is removed in this way in a week or so, with all its defects. No bleach could do other cutaneous blemishes. The new surface is smooth, clear, fresh looking. No harm or inconvenience accompanies this simple treatment.

For wrinkles or crowfeet, a solution of powdered ascorbic acid, one ounce dissolved in a half pint of witch hazel, makes a face bath which is wonderfully effective. This is splendid also as an after-shaving lotion. (Advt.)

## APPLICATIONS

for the position of

Municipal Inspector of

Victoria City Schools

will be received by the Secretary of the Board up to July 15, 1921.

No. 3223.

Open Hospital Tenders.—At a meeting of the Building Committee of the Provincial Royal Jubilee Hospital Board last night, seven tenders for preparation for the construction of the new hospital building were opened. The tenders were found to be of a very reasonable nature and a recommendation on them will be made at a later date.

Sugar refinery plants at Chatham and Kitchener are to close operations.

## Silky Wool From Australia

No other material was ever used in these famous stockings for children.

There have been times when the Australian supply was light. Then, we were unable to produce enough Little Darling and Little Daisy Hosiery to go 'round. For we would not substitute other wool.

We thought it better not to vary the quality of Little Darling and Little Daisy Hosiery.

Mothers, we know, expect in these stockings the finest, softest and best knitted wool yarn. They expect unusual wear. It means much to them to clothe their children in such comfortable, healthful—and, at the same time, such economical—material.

LITTLE DARLING HOSIERY—for babies and tiny tots up to seven—has silken toe and heel.

LITTLE DAISY HOSIERY—for children up to twelve—has extra strength in heel and toe.

Many dainty shades and black.

The Chipman Holton Knitting Co., Limited, Hamilton

## OPPOSES CLEAN UP OF CABARETS. HERE AT PRESENT

Mayor Says Reform Must Wait; Council to Hear Arguments

The City Council has no intention of going ahead with the long-expected cabaret "clean up" now, in spite of the protests of members of the Police Commission, it was learned at the City Hall to-day. The aldermen are determined to stand firm in their plan to delay reform in the cabaret situation until they can see for themselves just how the new liquor law will work out in practice.

Police Commissioners Dr. Hall and Joseph North will discuss the matter with the Council Friday, but the aldermen are strongly against immediate action. Alderman George Sangster was chiefly instrumental in having the cabaret clean-up postponed until the new liquor law had been in force some time. His advice was backed up by the City Solicitor, who agreed that it would not be wise to start the purify drive for a time yet. To-day Mayor Porter came out in support of the postponement plan.

**MUST WAIT AND SEE**  
"It would be foolish in the extreme for us to pass the Cabaret by-law before we know how the liquor law will work out," the Mayor declared. "This matter is being discussed. It may be utterly different to those which will prevail with Government. Control in effect. We might pass a measure now which would cover the present cabaret situation all right but which would be useless under the new liquor law. For this reason the only wise course is to postpone action on the cabarets. For instance, if bars and cabarets incorporate as clubs, which can give their members beer then we shall have to deal with the situation accordingly. If there is no beer in cabarets at all then we shall have a different situation to face altogether."

## OLD ST. JOHN HOUSE BURNED

Landmark in New Brunswick Was Destroyed

When the fine old residence of William St. John, known as the "Nanon," was destroyed by fire another link with the past century was snapped. The house was built over one hundred years ago. It was a great ten-roomed structure built entirely of logs and one of the finest examples of pioneer architecture existing in the Province of New Brunswick. In later years it had been fitted with every modern convenience and made one of the most comfortable homes in the district. There is in St. John, however, a house which antedates the MacLean residence. This is the one at the corner of Old and Germain Streets, which was built by David Merritt over one hundred and thirteen years ago and is still occupied by descendants of the original family. Eighteen ants of the original family are still together with wooden pins like the modern barn frame supports the house, which is finished in the massive style customary a century ago. The sills of pine are of the thickness of trees entirely vanished from our forests. It has carved stair sills that are the admiration of the present generation and a mahogany staircase that is a wonderful piece of work. Some of the panels are of oak fourteen inches in width. Possibly the most fascinating bit of architecture in the old house is the entrance hall. At the back of the hall is a doorway so contrived that at first glance it seems merely a continuation of the room. The old brick oven remains intact although for over many years modern cooking methods have been used in the house.

On a Knoll.  
The house was originally built upon a knoll with a mere covering of soil upon the primary rock. In later years a street was cut alongside of house so that at the present time David Merritt's handwork stands a full ten feet above the St. Germain Street sidewalk on a solid rock base. When the Loyalists went to St. John they erected several splendid houses quite as good as the Merritt home, but most of them were lost in the great fire of 1877. As far as is known, the Merritt house is the oldest in St. John and probably one of the most ancient in the Province of New Brunswick. Each year it is visited by hundreds of tourists who find a never-ending source of interest in its early nineteenth century architecture.

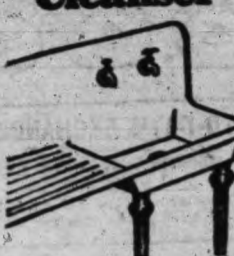

## VICTORIAN MEMBER OF COMMITTEE

H. G. Wilson Elected at Wholesale Grocers' Convention

Quebec, June 15.—At the closing session of the Canadian Association of Wholesale Grocers here yesterday afternoon the following officers were elected: Hon. president, Hugh Blain; president, Armand Chaput; first vice-president, A. H. Patterson; second vice-president, A. P. Patterson; third vice-president, L. T. Merwin; treasurer, T. H. Kinnear; secretary, A. C. Pyke. The executive includes: H. G. Wilson, Victoria; W. H. Malkin, Vancouver; W. A. Logan, Calgary; R. C. Brown, Edmonton; H. G. Smith, Regina; F. Brown, Winnipeg; and R. R. Wilson, Winnipeg.

The place and date of the next annual convention were left to the executive.

## WILL STAGE FRENCH PLAY FOR VETERANS

Army and Navy Veterans Fostering Scheme of Technical Education

In aid of a fund to establish an institution where returned men may be taught technical subjects and those who have not past the years of service may be taken care of, the Army and Navy Veterans are now planning to stage the play "Nanon" in an open air series of entertainments at the Willows on July 4. F. L. Mowbray, secretary of the Army and Navy Veterans, is in charge of all arrangements and is now busy with the plans. The success of the play is the success that is expected the fund for this worthy object will receive an impulse that will make the movement in time it is hoped to make the fund spread over the entire Dominion, and lay before the Government a concrete scheme for the satisfactory settlement of the re-establishment question.

## THE NEVER-ENDING ARGUMENT

"They find a lot of fault with your carving."

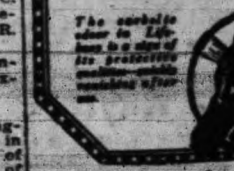

"Yes," replied the host, "but if they find fault with the carving knife for a can opener I could do better."

**CLEAN—yes and disinfected too!**

Everyone likes bed-linen, blankets, etc., to be super-clean—immaculately fresh. The best of all soaps to use is Lifebuoy—it actually disinfects as it cleanses.

**LIFEBUOY HEALTH SOAP**

## DEFENDS CITY'S POLICY ON NEW LIQUOR PROFITS

Mayor Says Council Wise in Not Counting on Aid

The City Council showed good judgment when it refused to finance on the possible revenue from Government sale of liquor, Mayor Porter declared to-day, on the eve of the inauguration of Government liquor control.

"More than ever am I convinced that we were very wise in not counting on the money the city should get as a result of the sale of liquor by the government," the Mayor declared. "It was of that opinion to start with, and I am indeed glad that the Council refused to listen to the arguments of those who would have had us go ahead on the assumption that we would get very large financial assistance as the result of liquor sale."

"What that assistance will be it is impossible to say, but I am satisfied that it would have been unwise to have laid out our plans on the assumption that we would receive extensive help. If we get any money we can use it to pay off debts which we have always with us. The high price of liquor, and the federal importation tax, was at least holding down this, but I think they will find that they have made a great mistake."

## TOLD OF CANADIAN LABOR BODIES

Denver, Colo., June 15.—W. F. Bush, fraternal delegate representing the Canadian Trades and Labor Congress, told the American Federation of Labor convention here yesterday that despite difficulties organized labor in Canada was at least holding its own. He reviewed the incipency of the One Big Union movement and predicted its early death.

## Keels Inflamed Nostrils Stops Catarrhal Discharge Relieves Colds Quickly

You'll be pleasantly surprised at the quick action Catarrhose has upon Catarrhal conditions of the nose or throat. It is so soothing, so healing, so agreeable to use, so safe and reliable that thousands praise it and use it everyday. No nasty medicine to take—you just breathe in the balsamic vapor, the healing essence of Catarrhose and feel better at once. Catarrhose is breathed through the inhaler into every air passage in the throat and nostrils. No matter where the cold or Catarrh is, Catarrhose will reach it. You can keep free from coughs, colds, bronchitis and the like by using Catarrhose. Two months' treatment one dollar, small size 50c. Dealers everywhere. The Catarrhose Co., Montreal.—Adv.

## EXPERIMENT IN EDUCATION FIELD

Bryn Mawr Summer Course For Working Women

Bryn Mawr, Pa., June 14.—A group of women workers in industry, representing many states, gathered at Bryn Mawr College to-day for the opening to-morrow of an educational experiment without precedent in America—a two months' Summer course for working women. Scholarships covering tuition, board, room, everything but incidental personal expenses such as laundry, had been provided for these young women by trades unions or through working girls' clubs. The college has assembled a corps of instructors from colleges and universities throughout the East and Middle West to help train these young women along broad and constructive lines, so that they may exercise an increasing influence in the social and industrial world.

Only seventy students could be accepted, and it was a difficult task for the joint administrative committee, representing the college and women workers, in industry, to select them from the many applications. They were chosen because of character and ability from among those who had shown a natural aptitude for leadership.

Subjects.

Subjects offered include English, both written and spoken, in public speaking, literature, history, economics, government, labor movements and problems, industrial organization, elementary law, physiology and hygiene, community life, the origin and evolution of the earth and of life, general psychology and appreciation of art.

Lectures and discussions will fill the morning hours, and in the afternoon there will be two hours of conferences and preparations. The remainder of the day will be filled with various activities, including athletics, training in the gymnasium, dancing on its roof, plays and entertainments. The college library will offer a cool summer retreat for the more studiously inclined.

A group of Bryn Mawr alumni will live in the same dormitory with the new students and share their athletic and social activities.

New York Leads.

New York is represented by the largest number of students, with Massachusetts and New Jersey coming next. Trades represented include weavers, sewing machine operators, sheet and pillow-case workers, shirt and collar makers, cap makers, milliners and trimmers, clothing makers of various sorts, hostess and knit goods makers, laundry workers, cigar box makers, bindery workers, printer and proof readers, silk workers, cordage workers, overall makers, electric operators and soap makers.
